TEUESDAY, - NOVEMBER 4, 1890.

For Congress  
WILLIAM T. ELLIS,  
of Daviess County.

The tariff on tableware is now so high that even lovers cannot afford to be spoony.

John Rhea has put in some good looks for Ellis and the district will not forget him in the future.

Rev. W. J. Simmons, the well-known colored preacher and professor, died at Cave Spring, Ky., last week.

Ellis will carry Christian county to-day and his majority in the neighborhood of 2,000.

Officers of election should look out for illegal votes. Many voters have changed their district since registering and cannot vote.

Boys, to-day the battle of the ballots is on. Buckle on your armor and put in one good day's work for Democracy and good government.

The Kentuckian has taken the precaution to order a well assorted Democratic poultry yard for use next Friday. A single rooster will not be equal to the occasion.

The surest way to guard against illegal voting is to demand the registration certificates of every voter. Those who have really lost them will not object to taking the oath required by law.

The Globe-Democrat, the Republican organ of St. Louis, concedes that the Democrats will have a majority of six in the next Congress. It would be nearer the correct estimate to put it twenty-six.

Judge W. S. Pryor, of the Court of Appeals, was forced to make an assignment last week on account of security debts. Judge Pryor was a comparatively rich man but this misfortune amounting to \$85,000 of liabilities will break him.

Ellis has been meeting Bourland at his appointments in the other end of the district and mopping up the face of the earth with him. It was a sad day for Mr. Bourland when he decided to neglect his duties at Frankfort and take the stump.

"I have come here to give you a note of warning. As Pennsylvania votes on next Tuesday, the nation votes two years hence." These words were uttered by Jas. G. Blaine in a speech at Philadelphia Saturday night. Wait for the news from Pennsylvania.

About 63,000,000 is all the population which the country is to be credited with this year. This is probably nearly, if not quite, 2,000,000 short of the actual number. However, the increase which will be revealed in 1900 will be especially great because of this omission, for it is scarcely likely that the next census will be as inadequate as this has been.—Globe-Democrat, Rep.

The Spanish-American steamer, Vizcaya, from New York to the West Indies, collided Thursday night with the Cornelius Hargraves, off Lewes, Delaware. Of the crew of the Vizcaya, numbering eighty-six, only fifteen were saved and but twelve were rescued from the Hargraves. Capt. Allen, of the latter vessel, deserted his crew and passengers in one of the largest life boats with four men, although there was room for sixteen in the boat and people were drowning all round him as he pulled off.

Unless all signs fail Ellis will not lose a district from Mt. Vernon around to Bainbridge. In August the Democratic ticket lost four of the eighteen districts, by very small majorities, and Longmoor came to town from the South with about 600 majority, including Hopkinsville Nos. 2 and 3. Ellis will do even better than this. The nine Northern precincts are not all conceded to Bourland. There are some mighty good Democrats in Wilson and Stuart and they may be able to hold enough of the Democratic majority to save the districts. It is not unlikely that both of the Northern city precincts will be carried for Ellis, though the test work ever done for No. 4 was to cut its 350 Republican majority down one half this year. After the election it will be found that there was a good deal of fuss and feathers and very little meat in the claims of Bourland. Ellis will carry Christian county by not less than 300 to 100.

A Ray of Hope.

For all who are held by the chains of scrofula or other diseases of the blood comes from Hood's Sarsaparilla, which by imparting the elements of good health and strength to the vital fluid, dissolves the bonds of disease and sets the captive free. No other remedy in existence cures the positive economy, the regular merit and the medicinal power of Hood's Sarsaparilla.

CHAMBERLAIN'S  
Eye and Skin Ointment.

A certain cure for Chronic Eye, Eczema, Tetter, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Prairie Scatches, Nipples and Piles. It is cooling and soothing. Hundreds of cases have been cured by it after all other treatment had failed. 25 and 50 cent boxes for sale by Buckner Leavell.

THE FUSION CANDIDATE.

Mr. Bourland's record has been ventilated and it is difficult to see how a self-respecting man of any party can vote for such a man.

It has been charged and proved by affidavits that he voted for the Hopkins county prohibition law, but spoiled his record as a prohibitionist by running a "tavern" outside the town limits during local option days at Madisonville and forfeited his good character by selling liquor in less quantities than a quart, in violation of the law. This charge has been fastened upon Mr. Bourland by the affidavit of Wm. Bradley, reputable citizen, and he cannot disprove it.

It has been proven by the reproduction in parallel columns of the two epistles, that Bourland and Dr. James, the Republican candidate in the Third district, used the same letter of acceptance, only a few necessary changes being made from the common language. This everlastingly fixes upon him the charge that he is being used as a tool by Republican conspirators. The only thing not made clear is who wrote the two letters. The same man wrote both of them.

Bourland's record in voting against two sessions a day is clearly understood. This charge has been proven by the official report in the Convention Journal and no amount of circumlocution can explain it away.

In his card Mr. Bourland declared that he would be unworthy of support, or words to that effect, if he left his post of duty to enter the canvass and yet he did this very thing several days ago and is still actively engaged in begging votes to-day.

It has been further charged that Mr. Bourland, while claiming to be a Democrat, sold out his party in Hopkins county and entered into a conspiracy with Waddill, a Republican, to elect him county attorney in return for being given a clear track himself. This political skulduggery defeated all but one of the Democratic nominees in the county.

And last but not least, Mr. Bourland is ranting over the district as a bolter who is willing to sell his party and his own political salvation for a mess of Congressional pottage, which he will not get. He is a deserter and an enemy of the Democratic party. Bury him under your ballots.

An honest Swede tells his story in plain but unmistakable language for the benefit of the public. "One of my children took a cold and got the croup. I gave her a teaspoonful of Chamberlain's Cough Remedy, and in five minutes later I gave her one more. By this time she had coughed up the gathering in her throat. Then she went to sleep and slept good for fifteen minutes. Then she got up and vomited; then she went back to bed and slept good for the remainder of the night. She got the croup the second night and I gave the same remedy with the same good results. I write this because I thought there might be some one in the same predicament and not know the true merits of this wonderful medicine." CHARLES A. THOMSON, Des Moines, Iowa. 50 cent bottles for sale by Buckner Leavell.

It is admitted that Ellis has gained strength rapidly during the last ten days. Democrats are falling into line everywhere and Ellis will carry at least six of the eight counties in the district. His election is no longer doubted. But let no Democrat who reads this before seven o'clock to-night fail to add one vote to his majority.

Many old soldiers, who contracted chronic diarrhoea while in the service, have since been permanently cured of it by Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Buckner Leavell.

After agreeing to nearly all of the sections of the Bill of Rights the subject was made a special order for next Monday by the constitutional convention. Gov. Knott succeeded in amending only one section.

Beware of Ointments for Catarrh That Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.

Sold by Druggist, price 75c. per bottle.

A Universal Wedding Present.

The publisher of the Household evidently believes in encouraging matrimony, as will be seen by his offer in another column to send a wedding present to every bride who may apply for the same. See his offer headed "To Young Housekeepers."

For lame back there is nothing better than to saturate a flannel cloth with Chamberlain's Pain Balm and bind it on the affected parts. Try it and you will be surprised at the prompt relief it affords. The same treatment will cure rheumatism. For sale by Buckner Leavell.

## The Forum for November.

The November number of the Forum contains three articles that treat of three phases of agricultural depression. One is by Mr. C. Wood Davis, the Kansas student of our agricultural development, who, under the title of "The Probabilities of Agriculture," writes a reply to the recent article by Prince Kropotkin on "The Possibilities of Agriculture." Mr. Davis shows by a review of the crops of the world that approximately the limit of production has been reached. He predicts that food will become dearer and dearer, and that in a few years we shall import food into the United States. In another article Mr. Daniel R. Goodloe, of Washington, presents the startling statistics as nearly complete as they have been made, of the farm mortgages in all the most important western States which show that the independent small farmer in these States is gradually becoming extinct; and in the third article, the Rev. Dr. Washington Gladwin reviews the organizations of farmers, recites their motives, and points out the valuable part of their work and influence.

Two American race questions are discussed: "The Progress of the Negro," by the Rev. A. D. Mayo, who after twenty-five years' close study of the problem, sets forth hopeful conclusions, which are very complimentary to both races in the South; and "French Canadians and the Dominion," by W. Blackburn Hart, a Canadian writer. Mr. Hart reviews the rise and explains the aims of the Catholic hierarchy in Canada, which, he argues, will rule or ruin the Dominion if it can.

Senator Cullom, who took an important part in the work of admitting the six new States into the Union, presents the record of their development and explains their industrial and social condition.

THE PRINTER'S ART.

What the Printer of "The Century" Says About Changes in the last Twenty Years.

(Theo. L. De Vinne in the November Century.)

Twenty years is but a short interval in the chronology of an art that is more than four hundred years old, but a good deal has been done for improvement of printing between the year of 1870 and 1890. Cylinder presses have supplanted hand and platen presses in printing woodcuts and large editions of fine books. Dry paper has taken the place of damp paper. In many large printing houses the appliances for dampening have been abolished, or set aside to be used only for rough and hand made papers. Smooth-surface papers of moderate price have been introduced that take a sharper impression and show clearer grays and more vigorous blacks than can be had from impressions on the luxurious India and Japan papers. Easy working and durable black inks are as common now as they were scarce twenty years ago. Electrotypes plates are made of smooth surface, and are curved with unharmed lines, to fit the cylinders of rotary printing machines on which they produce press-work that fully meets the most exacting requirements.

Last, but not least, the final pressing of the printed work, which makes a solid and shapely magazine, is done more quickly and more thoroughly by pressing in the fold than was ever done when the work was pressed in sheets.

Universally Admired.

Visitors to the city of Louisville observe that the old Silas Jones whiskey, of which Laz Simons & Co. are sole proprietors, is one of the most popular brands in the market, it being particularly noted for its purity and it is said to be one of the best on the market for medicinal purposes. This popular brand is sold all over the United States. ad.
